(c) ensure that the REIT’s assets have proof of title or ownership of interests to allow proper custodial arrangements to be made; and

(d) cancel a transaction or make a corresponding acquisition or disposal at its own expense to secure restoration of the previous position where the trustee conveyed an opinion that a particular acquisition or disposal exceeds the powers conferred on it, or is otherwise contrary to the interests of unit holders.
Chapter 8: Investments of the Real Estate Investment Trust

Permissible Investments

8.04 Subject to the requirements and restrictions on investments and activities outlined in this Chapter, a REIT may only invest in the following:

(a) Real estate;
(b) Non-real estate assets; and
(c) Cash, deposits and money market instruments.

Requirements and Restrictions on Investments and Activities

8.05 At least 75% of a REIT’s total asset value must be invested in real estate that generates recurrent rental income at all times.

Investments in Real Estate

8.06 An investment in real estate may be by way of direct ownership or through a shareholding in a special purpose vehicle. Where the investment is through a shareholding in a special purpose vehicle, a management company must ensure that–

(a) the investment is in the best interest of unit holders;
(b) there are valid commercial reasons for investing through the special purpose vehicle instead of in the real estate directly;
(c) the REIT owns the entire equity interest in the special purpose vehicle. However, where this is not possible, the REIT must have majority ownership of and control over the special purpose vehicle such that it is able to exercise all rights and interests over the real estate without any hindrance; and
(d) the value of the special purpose vehicle is backed by the value of the real estate.

8.07 Where a REIT acquires a real estate through a shareholding in a special purpose vehicle, the management company must not assume any liability of the special purpose vehicle, except for the commitments
in relation to loan or financing facilities with financial institutions relating to the real estate.

8.08 For the purposes of an initial listing of a REIT or acquisitions by a listed REIT, a management company must ensure the following:

(a) The real estate has a good track record or good prospects for reasonable levels of future net rental income;

(b) If capital expenditure is to be incurred to enhance the real estate, such expenditure would not materially affect the yield to unit holders; and

(c) The real estate is free from encumbrances at the time of listing or acquisition, except for charges entered by financial institutions, trustee or management company in relation to borrowing or financing facilities.

### Guidance to subparagraph 8.08(a)

Factors which should be taken into consideration include, but are not limited to, the following:

(a) For the purpose of determining whether the real estate has a good track record, historical tenancy levels for the real estate and the net rental income generated from it which demonstrates a reasonable yield for the REIT that is sustainable; and

(b) For the purpose of determining whether the real estate has good prospects—

   (i) the ability of the real estate to yield a reasonable return within a reasonable period of time;

   (ii) there should be good potential to secure tenants; and

   (iii) it should be competitive and located within good catchment areas.
Chapter 8: Investments of the Real Estate Investment Trust

8.09 A management company must ensure the following:

(a) The REIT has good marketable legal and beneficial title in all its real estate; and

(b) The REIT has majority ownership of and control in the real estate acquired to enable the REIT to exercise all rights and interests over the real estate without any hindrance.

**Guidance to subparagraph 8.09(b)**

For a real estate under a strata scheme, the REIT must have majority ownership of and control over the scheme to enable the REIT to exercise all rights and interests over the real estate without any hindrance.

8.10 Notwithstanding subparagraph 8.09(a), a REIT may invest in a real estate through a lease arrangement, provided that the management company ensures the following:

(a) Where the lease relates to a real estate located in Malaysia, the lease must be registered with the land authority;

(b) Where the lease relates to a real estate located outside Malaysia, the lease must be registered or recognised by the relevant land authority under a land registry framework equivalent to that of Malaysia;

(c) The REIT has the relevant rights, interests and benefits (including the right to sub-lease) related to the REIT's interests as a lessee of the real estate;

(d) The total value of investment through a lease arrangement, where the real estate having remaining lease period of less than 30 years must not exceed 25% of the REIT's total asset value at the point of listing or acquisition, as the case may be; and

(e) The interests of unit holders of the REIT are protected with respect to the risk relating to the REIT not being the registered
proprietary of the real estate. Legal opinion must be obtained for this purpose.

8.11 Where it is not possible to register or recognise the lease with the relevant land authority as set out in subparagraphs 8.10(a) and (b), the REIT may enter into such lease arrangement, provided that the following additional criteria are met:

(a) The real estate is ancillary to a real estate of the REIT, whether existing or proposed to be acquired;

(b) It is in the best interest of the unit holders; and

(c) The value of the arrangement does not exceed 5% of the value of the real estate that it is ancillary to.

**Guidance to subparagraph 8.11(a)**

Example of ancillary real estate includes a pedestrian bridge, tunnel or path, or car park space.

**Guidance to subparagraph 8.11(c)**

A higher percentage may be allowed where there are valid commercial justifications. In such cases, prior consent from the SC must be obtained.

8.12 A management company must ensure that where the consents of the relevant authorities or parties to transfer the lease interest in the real estate are required, such consents have been obtained–

(a) in the case of a REIT which is seeking listing, before the REIT's prospectus is registered with the SC; or

(b) in the case of a REIT which is already listed, before the acquisition of the real estate.

8.13 Notwithstanding subparagraph 8.09(b), a REIT may invest in real estate where it does not have a majority ownership and control provided that–
Chapter 8: Investments of the Real Estate Investment Trust

8.14 A management company may only acquire vacant land provided that –

(a) such acquisition is undertaken for the purposes of property development activities;

(b) the aggregate investments of such acquisition and property development activities must comply with paragraph 8.17; and

(c) the developed real estate is intended to be held for at least two years upon completion.

8.15 The developed real estate may be disposed within two years from the date of completion of the development provided that the management company obtains–

(a) the trustee’s consent; and

(b) unit holders’ approval by way of a special resolution at a general meeting.

8.16 Subject to paragraph 8.17, a REIT may invest in real estate under construction, provided that the following criteria are met:

(a) The arrangement or agreement to acquire the real estate under construction is made subject to the completion of the building with sufficient cover for construction risks;

(b) The arrangement or agreement to acquire the real estate under construction must be on terms which are the best available for the REIT and which are no less favourable to the REIT than an arm’s length transaction between independent parties; and

(c) The prospects for the real estate to be acquired upon its completion are reasonably expected to be favourable.
8.17 The aggregate investments in property development activities (Property Development Costs) and real estate under construction must not exceed 15% of the REIT’s total asset value. For avoidance of doubt, such investments cannot be accounted towards meeting the requirement of paragraph 8.05.

8.18 Property Development Costs refers to:

(a) Costs that are directly attributable to development activities or that can be allocated on a reasonable basis to such activities; and

(b) Where applicable, the acquisition cost of the real estate that is being acquired for development purposes.

**Guidance to paragraph 8.18**

For the purpose of calculating Property Development Costs:

(a) The management company is expected to include a prudent buffer to cater for cost overruns that may arise during the course of development; and

(b) Where the management company undertakes property development activities for existing real estate, the book value of such real estate should not be included.

8.19 Where a REIT proposes to invest in real estate located outside Malaysia, the management company must ensure that–

(a) such an investment is in the best interest of the REIT and its unit holders; and

(b) the relevant laws, rules and guidelines are complied with, and that approvals or authorisations from the relevant authorities (foreign or domestic) have been obtained prior to the initial listing of a REIT or acquisitions by a listed REIT, as the case may be.
Chapter 8: Investments of the Real Estate Investment Trust

Guidance to subparagraph 8.19(a)

Factors which should be considered by a management company in ensuring that investments in real estate located outside Malaysia are in the best interest of the REIT and its unit holders include, but are not limited to, the following:

(a) Entry barriers, such as foreign ownership restrictions, foreign exchange and remittance control, and anti-competition provisions;

(b) Economic and political environment, legal, judicial and financial reporting framework, and the real estate market in the foreign country;

(c) Operational barriers, such as enforcement of legal rights as landlord and transparency of financial reporting;

(d) Taxation matters that may affect operations of a REIT investing in the foreign country concerned;

(e) Where applicable, the existence of a foreign entity to whom functions are delegated, the ability of the management company to maintain sufficient on-going supervision of such foreign entity and the presence of any constraint or limitation in engaging such an entity;

(f) Possible exit strategies or mechanisms for the foreign market and termination arrangements for the REIT’s foreign investments; and

(g) Practical and effective measures that would address any issue or mitigate the risks that may arise out of the foreign investment.

8.20 A management company must arrange adequate insurance coverage in relation to all real estate of the REIT.

Investments in Non-real Estate Assets

8.21 A REIT’s investment in non-real estate assets are subject to the following investment limits and restrictions:

(c) The value of a REIT’s investments in securities issued by any group of companies must not exceed 10% of the REIT’s total asset value; and

(d) A REIT’s investments in any class of securities must not exceed 10% of the securities issued by any single issuer.

8.22 The management company must ensure that the limits and restrictions for investments in non-real estate assets are complied with at all times based on the most up-to-date value of the REIT’s assets.

**Guidance to paragraph 8.22**

The use of the REIT’s latest total asset value, as disclosed in the latest audited financial statements of the REIT and adjusted for any proposed transaction since the issuance of such financial statements, is acceptable in determining compliance with the limits and restrictions.

8.23 The limits and restrictions in paragraph 8.21 do not apply to securities issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

8.24 In determining compliance with the limits or restrictions, any accrued entitlement on the securities held by the REIT may be excluded. The entitlement must not be exercised if the exercise results in the breach of any limit or restriction.

8.25 Notwithstanding paragraph 8.24, the right of convertibility may be exercised even if it results in a breach of any limit or restriction, provided there are justifiable reasons and prior consent of the trustee has been obtained. Nonetheless, the management company must, within a time frame of not more than one month from the date of the breach, take all necessary steps and actions to rectify the breach.
Investments in non-real estate assets in a foreign market are limited to foreign markets where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions (IOSCO). A management company must also ensure that the foreign market is an eligible market where it also has satisfactory provisions relating to—

(a) the regulation of the foreign market;

(b) the general carrying on of business in the market with due regard to the interests of the public;

Usage of Derivatives

A REIT may use derivatives for the sole purpose of hedging a REIT’s existing risk exposure.

Borrowings or Financing Facilities

A REIT may use borrowings or financing facilities to invest in real estate and for capital expenditure purposes.

A REIT may only borrow or obtain financing facilities from financial institutions or through the issuance of debt securities or sukuk.
8.31 In relation to the issuance of debt securities or sukuk for the purpose of investment in real estate, a management company, may do so through a special purpose vehicle wholly owned by the REIT.

8.32 The total borrowings or financing facilities, including borrowings or financing through issuance of debt securities or sukuk, and deferred payment arrangements of a REIT, must not exceed 50% of the total asset value of the REIT at the time the borrowings or financing facilities, or deferred payment arrangements are incurred.

Guidance to paragraph 8.32

For the purpose of calculating this limit, only deferred payment arrangements in relation to the acquisition of real estate must be included.

8.33 For the purpose of calculating the total borrowings or financing facilities of a REIT, hybrid securities may be excluded provided that the following criteria are met:

(a) The securities have a perpetual term;
(b) The redemption is at the sole discretion of the REIT;
(c) The distributions are non-cumulative;
(d) There are no features that will have the effect of incentivising the REIT to redeem its units (e.g. step-up in interest or profit rates); and
(e) The securities are deeply subordinated in the event of liquidation.

8.34 The management company may pledge the REIT’s assets to secure borrowings or financing facilities provided that the consent of the trustee has been obtained.

8.35 The trustee must ensure that the REIT’s borrowings or financing facilities and pledging of the REIT’s assets are not prejudicial to the interests of the unit holders.

(c) notify the SC as soon as practicable where such breach has been rectified.

8.37 Where the breach of limits and restrictions is a result of an appreciation or depreciation of the REIT’s total asset value, the management company must rectify such breach within a period of not more than three months from the date it becomes aware of such breach.

8.38 Notwithstanding paragraph 8.37, the three-month period may be extended if it is in the best interest of unit holders and trustee’s consent is obtained.

8.39 In the event the three-month period is extended, the management company must notify the SC and unit holders on the progress of the rectification of the breach through the quarterly reports.

8.40 Where a REIT fails to comply with paragraph 8.05 as a result of disposals of real estate, divestments or issuance of new units, the management company must take all necessary steps and actions to rectify the breach, within a period of 12 months from the date of the breach.

8.41 For investments in non-real estate assets, a 5% allowance in excess of any limit or restriction is permitted where the limit or restriction is breached through an appreciation or depreciation of the REIT’s total asset value.

Where a conflict cannot be avoided, appropriate safeguards must be put in place to protect the interests of the unit holders and ensure that the REIT is not disadvantaged by the transaction concerned.

9.02 If a management company manages more than one REIT and a transaction involves two or more of the REITs managed by the management company, transactions between these two REITs are deemed as related party transactions for each of the REIT involved in the transactions.

9.03 Any related party transaction, dealing, investment, and appointments involving a REIT must be made on terms which are the best available for the REIT and which are no less favourable to the REIT than an arm’s length transaction between independent parties.

9.04 The appointment or renewal of appointment of a fund manager who is a related party of the management company must be approved by the independent directors of the management company.
Chapter 10

**Non-real Estate Assets**

10.09 A valuation must be carried out on all non-real estate assets in accordance with Schedule C.
